

10/629,415

**IN THE SPECIFICATION:**

Please replace the paragraph beginning on page 14, line 8 with the following amended paragraph:

The management module 200 may be coupled directly to a host device 220. For example, the management module 200 may be coupled to a host device 220 200-via Fibre Channel 222. Fibre Channel 222 is a technology that allows direct connection from a device to any host, server or switch. A number of ports may be provided to couple the management module 200 to hosts 230 and any combination of host types 230 may be implemented provided the appropriate interface logic is provided.
